

The Importance of Safe Vehicle Operation

No one likes driving in a snow or ice storm.

Whether your employees are on the road every day or just once in awhile, you need to help them be prepared for the dangers winter can bring.

- Have vehicles serviced regularly.
- Adequately clean the snow and ice off your vehicle before operating.
- Always practice defensive driving.
- Inspect your tires and inflation level on a frequent basis.
- Fill your wiper fluid before the first snow hits and keep it topped off.
- Maintain good quality windshield wipers at all times.
