

Stay Safe with Salt/Sand Shaker Bottles

Winter slips and falls are one of the leading causes of workplace injuries and a large contributor of workers' compensation costs.

The average total incurred cost of falls on snow and ice in United Heartland policy years 2010-2014 was \$11,511.

Winter slips and falls often occur as employees step out of their vehicles – salt/sand shakers can make the difference!

- Fill shakers with salt or sand and leave them in an employee common area for grabs.
- Encourage employees to store them in vehicle cup holders for quick access.
- Provide a salt or sand fill station for employees to refill their shakers on a regular basis.

Help your employees stay on their feet this winter season, order your shakers today!

Order Discounted Shakers Today!
